

VICTORIA'S WEAPONS SUPPLY CHAIN

Did you know about the extent of Victoria's weapons supply chain and its links to the Gaza genocide?

Weapons companies in our state include: **BAE Systems** - supplies weapons systems and components to the Israeli Offence Force (IOF); **Thales** - partners with Israeli Aerospace Industries and Elbit Systems to produce guided missiles and killer drones; and various companies involved in the **F-35 supply chain**. All F-35s contain Australian-made components, which Israel have used in the genocide of tens of thousands of people in Gaza. Without the below facilities, the F-35s used to bomb Gaza could not be made.

 Weapons Corporations	
1: BAE Systems	6: Leonardo
2: Boeing	7: NIOA
3: DST	8: Thales
4: L3 Harris	9: Varley Group
5: Leidos

This is why we are protesting the Land Forces expo from Sep 8-14 at the 'Melbourne' Exhibition Centre

At Land Forces, weapons CEOs, generals, diplomats, and defence ministers come together to do the deals that end in genocide - and we do not want the genocide supply chain in our home.

The power of community has a proven record of disrupting weapons manufacturers. Before it moved here, Land Forces was kicked out of Magandjin 'Brisbane' after sustained community pressure. Join our collective of ordinary people to tell them they are not welcome here either! All levels of experience are welcomed and encouraged, as are all protest styles! We only ask for no harm to life, and respect for other actionists.

For more information about the campaign to Disrupt Land Forces, and to learn more about the weapons supply chain in 'Victoria' and the rest of 'Australia', scan the QR code above or visit www.disruptlandforces.org
